The only way to know if it's a patsy or not is if another one happens. As time ticks their odds of getting caught skyrocket. But if they are this smart, they timed this trial run real good.

The Globalist Corporate Propaganda Network/FBI Inc. has this guy as their main suspect:

>63 yo Anthony Warner

Update (2250 ET): Local news WSMV News4 Nashville is reporting "FBI agents spent the days at another location today besides searching the home of Anthony Warner, pursuing tips that he was paranoid about 5g spying on Americans."

https://www.zerohedge.com/political/nashville-police-have-person-interest-connection-rv-bombing

So as the Globalist Propaganda Network/FBI develop their theory it's highly likely the pats...suspect will turn out to be an old daffy Trump-supporting conspiracy nut, 'threating Our lovely democracy' and my guess, a Holocaust/Covid Denying eebil ol' non-mask-wearing Nadsie.

it means he's a boomer who practiced zero opsec. he has stuff for an insurance company, several images relating to both the current site and all past sites. some appear to have been taken by him, like this and the pupper pic.

this isn't the ATT building btw. img_1 is a picture of a cabin, the images directory appears to have been primarily shit for i guess his clients? looks like he was doing webdev and wasn't horrible at it.

Well you need to contact the good folk at @WSMV/FBI Global Inc. and tell them that becos they are selling their audience that Mr Warner parked his RV outside AT&T and took out local Internet operations becos he was "paranoid" about Global Corporate Investment in Chinese Global Inc . 5G Technology. I'd say that was one explosive political statement.

That's the problem when the Globalist Propaganda/Intel network has to try manufacture evidence to fit their media narrative.... All those damn Service-Goyim who start noting irregularities in the official manufactured narrative. No matter how hard they try, like any sophisticated organized crime network, it's literally impossible to cover all bases when you are trying to sell a scam to millions of First-world Service-Plebs. Imagine if they did not totally own the Globalist Corporate Propaganda Network Brands?

i don't think they are desu, imo this is one of three things:

>boomer webdev with nothinng to live for bombs att because reasons, gives house to girl he was simping for(just like paddock and all his money)
>boomer thinks att is evil and spying(probably true desu, also this will be used to fuck all of us over if this is the case)
>various degrees of CIA niggery

my personal schizo theory: there's a group on some fucked corner of the internet finding out of luck oldfag incels that like CP and blackmailing them into going postal on livestream for their own sick enjoyment(aurora shooting, vegas shooting, and this have odd similarities) - they're probably rich arabs that just wanna see people fuck shit up. the CP angle also fits arabs since CP is legal in the UAE.

i especially think vegas was streamed somewhere(one floor up kek) since he rigged the room with cameras with no decent way to watch the feeds as he shoots.

This is a possiblity, may have nothing to do with dominion and just a group of feds that needed to prove something.

Whether or not Anthony Q Warner was complicit in this thing is not the point any more. THE RV WAS A SMOKESCREEN. A diversion with a patsy and a way for the C1A to minimize collateral damage by getting people off the streets.

JESUS CHRIST. 25 General threads in and there's still no links to the videos showing a missile strike and the point of explosion being across the street from where the RV was? I saw that a couple anons made an attempt at getting them noticed in #22-24 and one guy in the "Happening" thread over here >>298730425, but apparently no one but the shills are paying attention.

Video #1:
https://youtu.be/U6aM7WHm-NA

Video #2:
https://youtu.be/YDiKgWGb-so

SAVE THESE VIDEOS before the glownigs call the traitors at jewtube and have them removed. And before any of you fucking worthless shills say something like "it's a piece of debris being thrown from the explosion" or some gay shit like that, the "trail" or "plume" is DISSIPATING DOWNWARD AS IT FOLLOWS THE PROJECTILE TO THE GROUND. Cunts.
